

AMVE HEAVY DUTY STEEL DROP SIDE TRAY WITH INTEGRATED ROPS

AMVE manufactures heavy duty steel drop side trays with integrated ROPS designed to suit all vehicle types - including dual cab, extra cab and single cab variants. Using only the highest quality steel materials, our products are built to withstand the harshest conditions.

All ROPS are fully engineer tested and certified to meet industry standards. AMVE's double hoop ROPS design alleviates the need for backstays, allowing full use of the tray area. Every product is fully sandblasted, zinc primed, and powder coated for maximum durability.

Standard Inclusions

- AS/NZS 4034.1 Mesh Rear Window Protection
- 76mm double headboard certified external ROPS
- Fully welded construction
